React Native, React, JavaScript, Typescript, Next.js, Jest, Node.js

Experience

Mobile Developer Consultant - Major Latin American Airline Holding — Thoughtworks. Santiago, Chile 05 / 2023 - Today

Front-end mobile developer and assistant technical leader for a loyalty program app tasked with delivering an MVP in production within 6 months using Micro Frontends architecture for the Brazilian market. As part of the enabling team, worked on both the app and parallel projects such as a design system utilizing Storybook and a core library enabling modules and services for all teams.

Achievements: Develop and deploy a multinational app with high quality standard and excellent ratings on stores.

Tech Stack: **React Native, TypeScript, Jest**

Mobile Developer Consultant - Major Latin American Retail Chain Store — Thoughtworks. Santiago, Chile 09 / 2022 - 05 / 2023

Part of a team challenged with developing a loyalty app within a 6-month timeframe. In his role as a Mobile Developer, he works on features such as digital wallet management, promotion deployment, notification systems, and personalized recommendations including testing.

Achievements: Creation from scratch of an app utilized by over 3 million people, successfully deployed with excellent ratings.

Tech Stack: **React Native, TypeScript, Jest**

Developer Consultant - National Infant Care and Nursery Company — Thoughtworks. Santiago, Chile 03 / 2022 - 07 / 2022

Participated in the initial Discovery phase, conducting interviews with professionals from Chile and Brazil to understand the problem to be addressed. Then contributed as a Full Stack developer on a platform utilizing Micro Frontends architecture for childcare management, incorporating BFF layers and connecting various backends to both relational and non-relational databases.

Achievements: Requirement gathering with child care professionals from Chile and Brazil. MVP delivery and successful pilot launch.

Tech Stack: **React, TypeScript, Node.js, Java.**

Front End Developer - Co-created APP dBarrio — dBarrio. Santiago, Chile 03 / 2020 - 01 / 2021

Involved as a Front End Developer within a self-managed team of 5 members, contributing to the creation of a B2B app that offers digital positioning to local stores through features like recommendation systems, georeferencing, and neighbor evaluations.

Achievements:- Best Academic Performance Award - FESW 2020. - Semifinalists in the INCmty Prototype Competition at Tecnológico de Monterrey 2020. - Interviews by digital media outlets and publications in newspapers.

Tech Stack: **React Native, JavaScript, Python**

Full Stack Developer Intern — Haulmer. Curicó, Chile 12 / 2019 - 02 / 2020

Worked with multiple teams to add new features, and refactor a B2B platform that handles invoices and payments for commerce.

Tech Stack: **Angular, Ruby, PHP Laravel**
